Penelitian ini bertujuan untuk (1), mendeskripsikan Komunitas Basis Gerejani (KBG), (2), menganalisis hasil sinode II Keuskupan Maumere berkaitan dengan KBG, (3), mengkaji peran KBG di Lingkungan Santa Maria Immaculata Paroki Waioti, dan (4), mengidentifikasi transformasi yang terjadi pada KBG masa pascasinode II Keuskupan Maumere. Metodologi penelitian menggunakan pendekatan kualitatif melalui studi lapangan dan kajian kepustakaan. Data dikumpulkan melalui buku-buku, jurnal, ensiklopedi, skripsi, artikel-artikel, dokumen, manuskrip, data-data profil, arsip KBG, wawancara, kuesioner dan observasi lapangan.

Berdasarkan hasil penelitian, penulis menarik kesimpulan bahwa Gereja Keuskupan Maumere memiliki konsistensi dalam mengembangkan KBG sebagai sarana keselamatan bagi umat. Hal ini ditunjukkan dengan menjadikan KBG sebagai fokus dan locus dalam aktivitas pastoral. Sinode II Keuskupan Maumere terbukti berdampak transformatif bagi kehidupan KBG yang terimplementasi melalui tujuh program strategi Keuskupan Maumere. 1) Meningkatnya kualitas pelayanan pastoral yang bermutu, berkarakter dan mampu memimpin organisasi pastoral dengan optimal dan efektif. 2) Menguatnya institusi keluarga katolik yang ditandai dengan penurunan kasus KDRT serta peningkatan partisipasi dan keaktifan dalam kegiatan gerejawi. 3) Peningkatan ekonomi umat. 4) Penguatan kesadaran politik umat. 5) Menguatnya solidaritas antara umat. 6) Menguatnya ketahanan iman dan budaya. 7) Optimalnya organisasi pastoral melalui peningkatan koordinasi dan manajemen lainnya.

ABSTRACT

Gasparz Gunawan, 21.75.7073. **Transformation of the Community Face of the Church Base in the Neighbourhood of Santa Maria Immaculata Parish of Santo Gabriel Waioti after the Second Synod of Maumere Diocese.** Undergraduate Thesis, Philosophy Study Programme, Ledalero Institute of Philosophy and Creative Technology. 2025.

This research aims to (1), describe the Church Base Community (CBC), (2), analyse the results of synod II of Maumere Diocese related to CBC, (3), examine the role of CBC in Santa Maria Immaculata Neighbourhood of Waioti Parish, and (4), identify the transformation that occurred in CBC in the post-synod II period of Maumere Diocese. The research methodology uses a qualitative approach through field studies and literature review. Data were collected through books, journals, encyclopaedias, theses, articles, documents, manuscripts, profile data, CBC archives, interviews, questionnaires and field observations.

Based on the results of the research, the author draws the conclusion that the Maumere Diocesan Church has consistency in developing the CBC as a means of salvation for the people. This is shown by making the CBC as the focus and locus in pastoral activities. Synod II of Maumere Diocese has proven to have a transformative impact on the life of CBC which is implemented through seven strategic programmes of Maumere Diocese. 1) Increasing the quality of pastoral ministers who are qualified, characterised and able to lead pastoral organisations optimally and effectively. 2) The strengthening of Catholic family institutions marked by a decrease in domestic violence cases and an increase in participation and activeness in ecclesiastical activities. 3) Improving the economy of the people. 4) Strengthening the political awareness of the people. 5) Strengthening solidarity between people. 6) Strengthening the resilience of faith and culture. 7) Optimisation of pastoral organisation through improved coordination and other management.
