Skripsi. Program Sarjana, Program Studi Pendidikan Keagamaan Katolik, Institut Filsafat dan Teknologi Kreatif Ledalero.

Skripsi ini menganalisis konsep kerasulan kaum awam menurut ajaran Gereja (Eklesiologi Konsili Vatikan II) dan menguji implementasinya melalui kegiatan katekese Bulan Kitab Suci Nasional 2024 di Kuasi Paroki Santo Arnoldus Janssen Wairita. Penelitian ini didorong oleh semakin mendesaknya peran kaum awam sebagai subjek pewartaan, terutama dalam menanggapi keterbatasan pastoral hierarkis lokal. Tujuan utama penelitian ini adalah untuk mendeskripsikan sejauh mana keterlibatan dan partisipasi umat Kuasi Paroki Santo Arnoldus Janssen Wairita dalam BKSNI 2024 mencerminkan semangat kerasulan kaum awam. Penelitian ini menggunakan metode kualitatif dengan Teknik pengumpulan data berupa observasi partisipatoris dan wawancara mendalam terhadap fasilitator, coordinator dan umat.

Hasil penelitian menunjukkan empat temuan utama: (1) semangat kerasulan kaum awam telah berakar dan teraktualisasi dalam keberhasilan pelaksanaan katekese BKSNI 2024; (2) keterlibatan umat melampaui peran partisipan pasif, terbukti dengan banyaknya umat yang berperan sebagai fasilitator (pemandu) katekese di KBG, lingkungan dan stasi; (3) umat Kuasi Paroki Santo Arnoldus Janssen Wairita ikut berperan dalam kegiatan katekese selama Bulan Kitab Suci Nasional 2024, baik sebagai fasilitator, animator maupun coordinator katekese; (3) peran fasilitator awa mini merupakan perwujudan konkret dari panggilan kenabian Yesus Kristus, yakni sebagai pewarta Injil; (4) secara praktis, katekese BKSNI 2024 telah mendorong umat untuk menghidupi aksi nyata dalam kehidupan sehari-hari, berupa solidaritas dan keterlibatan aktif dalam kegiatan rohani dan sosial (pelayanan orang sakit, bantuan bagi korban bencana alam). Dengan demikian, kegiatan BKSNI berfungsi sebagai sarana pembinaan yang efektif untuk meneguhkan kaum awam sebagai saksi Kristus di tengah dunia modern.

ABSTRACT

Agustino William Moa Abong. 210056. *The Lay Apostolate in the Church and its Implementation through the 2024 National Bible Month Catechesis Activities in Saint Arnoldus Janssen Quasi Parish Wairita Diocese of Maumere*. Thesis. Undergraduate Program, Catholic Religious Education Study Program, Ledalero Institute of Philosophy and Creative Technology. 2026.

This thesis analyzes the concept of the lay apostolate according to Church teaching (the Second Vatican Council) and examines its implementation through the 2024 National Bible Month (BKSNI) Catechesis Activities in the Saint Arnoldus Janssen Quasi Parish Wairita. This research is motivated by the growing necessity of the lay faithful as subjects of evangelization, particularly in response to local hierarchical pastoral limitations. The primary objective is to describe the extent to which the involvement and participation of the Quasi Parishioners in the BKSNI 2024 reflects the spirit of the lay apostolate. The study employs a qualitative research method, utilizing participatory observation and in-depth interviews with facilitator, coordinators and the congregation.

The results reveal four key findings: (1) The spirit of the lay apostolate is deeply rooted and actualized in the successful execution of the 2024 BKSNI catechesis. (2) The involvement of the congregation extends beyond the role of passive participants, evident in many individuals serving as catechesis facilitators (guides) in the Basic Church Communities (BBCs) and stations. (3) This role of the lay facilitator is a concrete realization of the prophetic calling of Jesus Christ, acting as a herald of the actions in daily life, manifesting solidarity and active involvement in spiritual and social activities (e.g., service to the elderly). Thus, the BKSNI activities serve as an effective formation tool to strengthen the identity of the laity as witness of Christ in the modern world.
